

POLICY NO:	PW 009
POLICY TITLE:	CRITERIA FOR STOP SIGNS
DEPARTMENT:	PUBLIC WORKS
APPROVAL DATE:	35-01-03 (January 2003)
REVISION DATE:	72-06-15 (June 23, 2015)
REVIEW DATE:	

Policy Statement:

The County of Vermilion River, in an effort to keep County intersections visible and safe, will consider conditions and requests when determining placement of stop signs.

Purpose:

To keep intersections in the County visible and safe.

Policy:

If any, one or a combination of the following criteria is met at an intersection, then a stop sign will be considered and brought to Council for approval:

1. Where the application of the normal right-hand rule would be unduly hazardous
2. Where the vehicle speed on the approach is less than 15km/hr due to the lack of visibility
3. Where visibility is less than 300 meters
4. Where higher traffic roads intersect or access an identified main traffic or “flow” road

The County will determine which roads will be designated as “flow” roads.
