

Land Use Bylaw & Municipal Development Plan Update

Why is the County updating the MDP & LUB?

To keep the direction of the documents current and consistent with regulation such as provincial legislation, properly addressing development trends, alignment with strategic priorities, and consideration for environmental and demographic information. This usually happens every 5-10 years, and the County of Vermilion River has seen a few major milestones such as amalgamation of the now Hamlet of Dewberry and the recent annexation. In addition, the review and updating will provide documents that will be more user-friendly.
